

Installation

- Create "**Coskun**" folder under "**App/Code**" and add the module into it.
- Run "`bin/php magento setup:upgrade``".
- Run "`bin/php magento cache:clean``".
- After the module is installed, the module should be activated from the settings that will come under "**Stores/Configuration**" in the admin panel and the settings should be completed.

Settings

Module settings can be made under the "**Coskun Settings**" menu under "**Store/Configuration**".

The screenshot shows the Magento 2 Configuration page for the 'Coskun' module. The left sidebar contains a menu with 'COSKUN SETTINGS' expanded, showing sub-items like 'Newsletter Subscriber Info', 'GENERAL', 'CATALOG', 'SECURITY', 'CUSTOMERS', 'SALES', 'YOTPO', 'DOTDIGITAL', 'SERVICES', and 'ADVANCED'. The main content area is titled 'General Configuration' and contains several settings:

- Module Enable** (global): A dropdown menu set to 'Yes'.
- Firstname Field Enable** (global): A dropdown menu set to 'Yes'.
- Firstname Field Placeholder** (global): A text input field containing 'First Name'. Below it, a note states: 'This text will display on the frontend.'
- Lastname Field Enable** (global): A dropdown menu set to 'Yes'.
- Lastname Field Placeholder** (global): A text input field containing 'Last Name'. Below it, a note states: 'This text will display on the frontend.'
- E-mail Field Placeholder** (global): A text input field containing 'Enter your email address'.
- Submit Button Label** (global): A text input field containing 'Subscribe'.

At the top right of the configuration area, there is a 'Save Config' button. The top of the page shows the 'Configuration' title, a search icon, a notification bell with '1', and the user 'john.smith'.
